

INDEX TO VOLUME XVII

A

- Agenesis of one lung (A. V. Neale), 167
Anaemia in nephritis (Patrick MacArthur), 1
Analysis of 272 infant deaths (F. J. W. Miller), 61

B

- Bacillary dysentery (Nelles Silverthorne and Agnes Walker), 210
BELL, DOYNE (and A. W. Woods): A case of exfoliative dermatitis of the newborn, 157
BRAY, G.: The allergic aspects of urticaria and angioneurotic oedema, 167
Breast-feeding, A further investigation of (Margaret Robinson), 23
Breast-feeding: Relation to maternal diet (J. H. Ebbs and Helen Kelley), 212
British Paediatric Association, Proceedings of thirteenth annual general meeting, 60; Giardiasis: some clinical and therapeutic observations, 60; Pyuria associated with anaemia in infants, 60; Analysis of 272 infant deaths, 61; The effects of bromides and chloral on children, 61; The effects of wartime rationing on child health, 61; Paediatric policy, 62
Proceedings of fourteenth annual general meeting, 166; Oesophageal spasm and stenosis, 166; Case of cardiospasm, 167; Observations on the incidence of certain nutritional disorders in hospital children, 167; Two unusual cases (a) Agenesis of one lung, (b) Congenital morbus cordis?, 167; The allergic aspects of urticaria and angioneurotic oedema, 167; Threadworm therapeutics, 168; An analysis of a thousand cases of congenital pyloric stenosis treated by surgery, 168; A portable oxygen tent for infants, 168; An epidemic of nephrosis occurring in the neonatal period, 169; Familial congenital immunity against measles, 169; Discussion: The future of paediatrics, 170; A memorandum on paediatric policy prepared by London Members, 173
Bromides and Chloral, The effects of on children (J. C. Spence), 61

C

- Cardiospasm, Case of (Donald Paterson), 167
CARTER, R. E. Bonham: Pyuria associated with anaemia in infants, 60
COHEN, E. Lipman: Two cases of glycogen disease, 235
COLLIS, R.: An epidemic of nephrosis occurring in the neonatal period, 169
Congenital morbus cordis? (A. V. Neale), 167
CORMICK, Janet: A study of the quantitative fragility test in children, 227
COUPER, Edward C. Ross (and Robert R. Hughes): Oligodendroglioma in infant of eight months, 147
Cystic fibrosis of the pancreas (C. E. Snelling), 220

D

- DAVIDSON, C. L. (and Jean Terry Thomas): Post-vaccinal encephalitis, 162
DAYNES, G.: An analysis of a thousand cases of congenital pyloric stenosis treated by surgery, 168
Dementia infantilis with cortical dysrhythmia (Alexander Kennedy and Denis Hill), 122
Diarrhoea, hospital (Philip Evans), 130
Duodenal ulceration in children simulating acute appendicitis. Four cases of (D. G. Wilson Clyne and J. Rabinowitch), 102

- Duodenal ulceration in children, two cases of (A. White Franklin), 95
Dysentery, Bacillary (Nelles Silverthorne and Agnes Walker), 210

E

- EBBS, J. H. (and Helen Kelley): Relation of maternal diet to breast-feeding, 212
EBBS, J. H. (and Frances Mulligan): Incidence and mortality of infants admitted to hospital with infections, 217
Encephalitis, post-vaccinal (C. L. Davidson and Jean Terry Thomas), 162
ENGEL, Stefan: Growth of lung in healthy and sick infants, 41
Erythroblastosis foetalis, fourth type, showing hepatic cirrhosis in the macerated foetus (J. L. Henderson), 49
EVANS, Philip: Hospital diarrhoea, 130
Exfoliative dermatitis of the newborn (Ritter's disease). A case of (Doyle Bell and A. W. Woods), 157

F

- Fourth type of erythroblastosis foetalis, showing hepatic cirrhosis in the macerated foetus (J. L. Henderson), 49
FRANKLIN, A. White: Giardiasis: some clinical and therapeutic observations, 60
FRANKLIN, A. White: Threadworm therapeutics, 168
FRANKLIN, A. White: Two cases of duodenal ulceration in children, 95
Further investigation of breast-feeding (Margaret Robinson), 23

G

- Gastric acidity during first year of life (R. A. Miller), 198
Giardiasis: some clinical and therapeutic observations (A. W. Franklin), 60
Glycogen disease, two cases of (E. Lipman Cohen), 235
GORDON, I.: Some social aspects of infant feeding, 139
GRAHAM, STANLEY: Observations on the incidence of certain nutritional disorders in hospital children, 167
Growth of lung in healthy and sick infants (Stefan Engel), 41
GUTHRIE, Katharine J.: Peptic ulcer in infancy and childhood, 82

H

- Haemorrhagic disease of the newborn (Elizabeth B. S. Scobbie), 175
HENDERSON, J. L.: Fourth type of erythroblastosis, foetalis showing hepatic cirrhosis in the macerated foetus, 49
HENDRY, Esther: A clinical and bacteriological survey of pneumonia in childhood, 111
HILL, Denis (and Alexander Kennedy): Dementia infantilis with cortical dysrhythmia, 122
Hospital diarrhoea (Philip Evans), 130
HUGHES, Robert R. (and Edward C. Ross Couper): Oligodendroglioma in infant of eight months, 147
Hydrocolpos in an infant (G. O. Richardson and G. A. Smart), 56

I

- Incidence and mortality of breast- and artificially-fed infants admitted to hospital with infections (J. H. Ebbs and Frances Mulligan), 217
Infant feeding, some social aspects of (I. Gordon), 139
Infantile muscular atrophy of spinal origin (J. G. Macleod and R. M. Macdonald), 30

K

- KELLEY, Helen (and J. H. Ebbs): Relation of maternal diet to breast-feeding, 212
KENNEDY, Alexander (and Denis Hill): Dementia infantilis with cortical dysrhythmia, 122

L

- Lung, growth of in healthy and sick infants (Stefan Engel), 41

M

- MACARTHUR, Patrick: Anaemia in nephritis, 1
McCANCE, R. A. (and W. F. Young): Secretion of urine by hydrated and normal infants, 65
MACDONALD, R. M. (and J. G. Macleod): Infantile muscular atrophy of spinal origin, 30
MACLEOD, J. G. (and Macdonald, R. M.): Infantile muscular atrophy of spinal origin, 30
Maternal diet: Relation of to breast-feeding (J. H. Ebbs and Helen Kelley), 212
Measles, Familial congenital immunity against (R. E. Smith), 169
Micro-method for estimation of sedimentation rate of red cells (Hilda Trought), 136
MILLER, F. J. W.: Analysis of 272 infant deaths, 61
MILLER, R. A.: Gastric acidity during first year of life, 196
MULLIGAN, Frances (and J. H. Ebbs): Incidence and mortality of infants admitted to hospital with infections, 217

N

- NEALE, A. V.: Two unusual cases, 167
Neonatal pneumonia, two cases illustrating treatment of (R. A. Ratcliff), 153
Nephritis, anaemia in (Patrick MacArthur), 1
Nephrosis occurring in the neonatal period, An epidemic of (R. Collis), 169
Newborn: Vitamin K requirements of (M. Toohey), 187; Haemorrhagic disease of (Elizabeth B. S. Scobbie), 185; Exfoliative dermatitis of (Doyne Bell and A. W. Woods), 157
Nutritional disorders in hospital children, Observations on the incidence of certain (Stanley Graham), 167

O

- Oesophageal spasm and stenosis (W. G. Wyllie), 166
Oligodendroglioma in an infant of eight months (Robert R. Hughes and Edward C. Ross Couper), 147
Oxygen tent, A portable, for infants (A. G. Watkins), 168

P

- Paediatric Policy, A memorandum on, prepared by the London Members of the British Paediatric Association, 173
Paediatric Policy (J. C. Spence), 62
Paediatrics, Discussion on the future of, 170
PATERSON, Donald: Case of cardiospasm, 167
Peptic ulcer in infancy and childhood (Katharine J. Guthrie), 82
Pneumonia in childhood, a clinical and bacteriological survey of (Esther Hendry), 111
Pyloric stenosis, congenital, An analysis of a thousand cases of treated by surgery (G. Daynes), 168
Pyuria associated with anaemia in infants (R. E. Bonham Carter), 60

Q

- Quantitative fragility test in children, study of (Janet Cormick), 227

R

- RABINOWITCH, J. (and D. G. Wilson Clyne): Four cases of duodenal ulceration in children simulating appendicitis, 102
RATCLIFF, R. A.: Two cases illustrating treatment of neonatal pneumonia, 153
Rationing, The effects of wartime, on child health (E. M. Widdowson), 61
Red cells, micro-method for estimation of sedimentation rate of (Hilda Trought), 136
RICHARDSON, G. O. (and G. A. Smart): Hydrocolpos in an infant, 56
Ritter's disease, A case of (Doyne Bell and A. W. Woods), 157
ROBINSON, Margaret: Further investigation of breast-feeding, 23

S

- SCOBIE, Elizabeth B. S.: Haemorrhagic disease of the newborn, 175
Secretion of urine by dehydrated and normal infants (W. F. Young), 65
SILVERTHORNE, Nelles (and Agnes Walker): Bacillary dysentery, 210
SMART, G. A. (and G. O. Richardson): Hydrocolpos in an infant, 56
SMITH, R. E.: Familial congenital immunity against measles, 169
SNELLING, C. E.: Cystic fibrosis of pancreas, 220
SPENCE, J. C.: Paediatric Policy, 62
SPENCE, J. C.: The effects of bromides and chloral on children, 61
Sulphapyridine in treatment of exfoliative dermatitis of the newborn (Doyne Bell and A. W. Woods), 157

T

- Threadworm therapeutics (A. White Franklin), 168
THOMAS, Jean Terry (and C. L. Davidson): Post-vaccinal encephalitis, 162
TOOHEY, M.: Vitamin K requirements of the newborn, 187
TROUGHT, Hilda: Micro-method for estimation of sedimentation rate of red cells, 136
Two unusual cases (A. V. Neale), 167

U

- Ulcer, peptic, in infancy and childhood (Katharine J. Guthrie), 82
Urine, secretion of by dehydrated and normal infants (W. F. Young and R. A. McCance), 65
Urticaria and angioneurotic oedema, The allergic aspects of (G. Bray), 167

V

- Vitamin K requirements of the newborn (M. Toohey), 187

W

- WALKER, Agnes (and Nelles Silverthorne): Bacillary dysentery, 210
WATKINS, A. G.: A portable oxygen tent for infants, 168
WIDDOWSON, E. M.: The effects of wartime rationing on child health, 61
WILSON CLYNE, D. G. (and J. Rabinowitch): Four cases of duodenal ulceration in children simulating acute appendicitis, 102
WOODS, A. W. (and Doyne Bell): A case of exfoliative dermatitis of the newborn, 157
WYLLIE, W. G.: Oesophageal spasm and stenosis, 166

Y

- YOUNG, W. F. (and R. A. McCance): Secretion of urine by dehydrated and normal infants, 65
